

GABE LUDWIG JOINS THE ORION COMPANIES

January 5, 2024

The Orion Companies (TOC) would like to welcome Gabe Ludwig to the organization as an Account Manager. The addition will continue to magnify our industry leading service driven sales and customer support approach to the business while expanding our footprint in key geographies and market segments.

Gabe joins the Orion Companies with over 23 years of experience in the Ag Chem industry with the last 17 of those years in distribution and manufacturer sales roles in the vegetation management industry. Gabe received a BS in Agricultural Business and Marketing and a MS in Entomology, Plant Pathology & Weed Science from New Mexico State University. Gabe has been married to his wife Melissa for 23 years and have five children. Gabe and his family live in the middle of the cotton and oil heartland, also known as Levelland TX. When not working Gabe loves hanging out with his dogs, collecting old petroleum & soda advertising signs, working in the yard or on home improvement projects, and playing games with the family.

We are excited to have Gabe join the Orion team and for all our customers to have access to his expertise. His broad knowledge of vegetation management in the desert Southwest and experience in the Industrial Vegetation Management market makes him a great fit to the Orion team as we continue to build out value-added service and support. Gabe's contact information is listed below. Please feel free to reach out to him directly to welcome him to his new role.

At The Orion Companies, we are driving our vision of expanding operations and representation in strategic segments. We continue to enhance our custom blending, packaging and warehousing capabilities at our Oakboro, NC and Gainesville, TX sites to support the needs of our partners. To support the growing business, The Orion Companies will continue to add key support roles as necessary to further enhance our industry status as a sustainable solution provider.

Kevin Adam
Chief Operating Officer, The Orion Companies
